

Tax Information for Calendar Year 2021

(January 25, 2022)

For Shareholders of The Commerce Funds

U.S. INCOME TAX INFORMATION:

Please be advised that a percentage of the income distributions paid by **The Kansas Tax-Free Intermediate Bond Fund**, **The Missouri Tax-Free Intermediate Bond Fund** and **The National Tax-Free Intermediate Bond Fund** during calendar year 2021 were exempt-interest dividends and, as such, are not subject to U.S. federal income tax. The remainder of the income distributions paid by these Funds should be considered ordinary taxable dividends for U.S. federal income tax purposes. The amount of exempt-interest and ordinary income dividends paid by the Funds, reflected as a percentage of income distributions paid, is presented in Table 1.

Table 1

THE COMMERCE FUNDS	EXEMPT-INTEREST DIVIDENDS	ORDINARY TAXABLE DIVIDENDS
The Kansas Tax-Free Intermediate Bond Fund	98.97%	1.03%
The Missouri Tax-Free Intermediate Bond Fund	99.73%	0.27%
The National Tax-Free Intermediate Bond Fund	94.89%	5.11%

Shareholders who are subject to the Alternative Minimum Tax ("AMT") should be aware that in some instances tax-exempt interest is considered a tax preference item for purposes of the AMT calculation. This tax preference item would include a fund's investment in certain tax-exempt municipal obligations which are considered to be private activity bonds. The last line of Table 3, on the next page, notes the percentage, if any, of the exempt-interest dividends paid by **The Kansas Tax-Free Intermediate Bond Fund**, **The Missouri Tax-Free Intermediate Bond Fund** and **The National Tax-Free Intermediate Bond Fund** that are a tax preference item for purposes of the AMT calculation.

In addition to income distributions, some of The Commerce Funds distributed a short-term and/or long-term capital gain dividend on December 6, 2021 to its shareholders of record as of December 3, 2021. Short-term capital gain dividends are treated as ordinary taxable income for federal income tax purposes.

Long-term capital gain dividends are also taxable and should be treated as long-term capital gain for federal income tax purposes, regardless of how long the fund shares have been held. For individual, estate, and trust shareholders, income distributions

attributable to qualified dividends earned by the Funds are also taxed at the long-term capital gain rate. The first column of Table 2 shows the percent of ordinary dividends paid by The Commerce Funds during calendar year 2021 that are qualified dividends. The next two columns show, on a per share basis, each Fund's short-term capital gain and long-term capital gain dividends paid during the calendar year.

A portion of each Fund's dividend may constitute either qualified REIT dividends or interest income for purposes of sections 199A or 163(j) of the Internal Revenue Code, respectively. Table 2 provides the percentage of ordinary dividends paid by the Funds during the calendar year designated as either Section 199A REIT Dividends or Section 163(j) Interest Dividends.

Please note that 5.90% of the distributions paid by The Short-Term Government Fund through October 31, 2021 have been classified as a nontaxable return of capital for U.S. federal income tax purposes. Although the return of capital is not taxable, you must reduce the cost basis of your Fund shares by this distribution when determining gain or loss upon disposition.

For corporate shareholders, the last column of Table 2 reflects the percent of the ordinary dividends paid by The Commerce Funds during the year which qualify for the 50% corporate dividends received deduction.

STATE AND LOCAL TAX INFORMATION:

Many states permit shareholders to exclude from their state taxable income the percentage of their mutual fund dividends derived from obligations issued by their state of residence or its municipalities. Table 3, on the next page, is provided to assist those shareholders of **The Kansas Tax-Free Intermediate Bond Fund**, **The Missouri Tax-Free Intermediate Bond Fund** and **The National Tax-Free Intermediate Bond Fund** who can benefit from this exclusion. This table reflects the source of the exempt interest dividends paid by the Funds during 2021.

Many states also permit shareholders to exclude from their state taxable income the percentage of their mutual funds dividends derived from federal obligations. Table 4, on the next page, provides the percentage of ordinary dividends derived from federal obligations held by each of the Funds during calendar year 2021 to assist those shareholders who can benefit from such an exclusion. Please note that shareholders who are residents of California, Connecticut, or New York are not entitled to the pass-through of interest derived from federal obligations held in these Funds for state income tax purposes.

MINNESOTA STATE TAX INFORMATION:

Shareholders of **The National Tax-Free Intermediate Bond Fund** who are residents of the State of Minnesota will be required to add back the entire amount of their exempt interest dividend to federal taxable income in order to compute Minnesota taxable income. The exempt-interest dividend, although not subject to U.S. federal income tax, is subject to Minnesota state income tax.
