* Returns for periods over one year are annualized. The returns represent past performance. Past performance does not guarantee future results. The Fund's investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted above. To obtain the most recent month-end returns, please visit our website at www.commercefunds.com/fund_is_SharePerf.shtm.

The Total Returns are average annual total returns or cumulative total returns (only if the performance period is one year or less) as of the most recent calendar quarter-end. They are net of expenses and assume reinvestment of all distributions at net asset value. Because the Fund is not subject to a sales charge, such a charge is not applied to their Total Returns.

The Fund invests in mid-capitalization securities. The securities of mid-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements.

MIDCAP GROWTH FUND UPDATE

U.S. equity markets continued the post-election rally through the 1st quarter as prospects of lower corporate taxes, less regulation and a stronger economy gave investors hope that earnings growth will begin to accelerate over the coming years. However, investors rotated out of the value stocks and into growth stocks in the Technology and Health Care sectors. The Commerce Mid Cap Growth Fund rose 7.00%, performing in line with the Russell Mid Cap Growth Index return of 6.89%.

Stock selection had little impact on the Fund's relative performance. The Fund's best performers for the period were Panera Bread Company (1.31%), Cadence Design Systems (1.18%), and MSCI Inc (1.16%) up 28%, 25%, and 24%, respectively. The weakest stocks were Dun & Bradstreet Corporation (0.00%), T. Rowe Price Group (1.18%), and Westinghouse Air Brake Technologies (0.00%), down 13%, 9% and 6%, respectively.

Sector allocation was the main contributor to the Fund's performance. The Fund's 2% underweight Retail Trade sector (down 5%) boosted performance. However, the Fund's 4% underweight to Health Technology sector (up 14%) detracted from performance.

During the quarter the Fund increased its position in the Technology Services sector from 11.8% to 13.2%, with the purchase of WEX Inc (1.19%). The Fund reduced its position in the Electronic Technology sector from 7.4% to 6.0% through the sale of TransDigm Group Incorporated (0.00%).
